Sample Dash Loader

April 2016

---

Installed **SIEMonster** and wondering  
what to do next?

Grab the Windows Event data  
sampler and visualize a real life SMB  
brute force attack.

How?

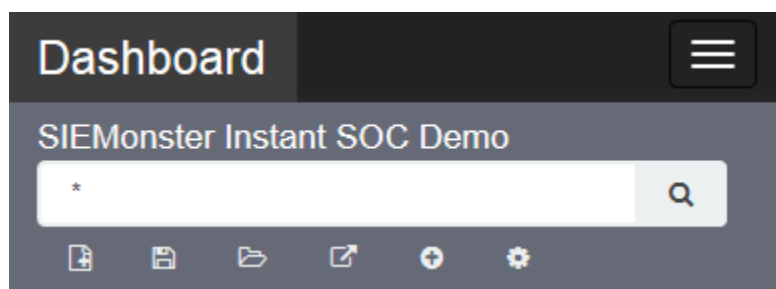

On Proteus

```
wget http://releases.siemonster.com/sample-dash.tar.gz
```

```
tar zxvf sample-dash.tar.gz
```

```
./sample-loader.sh
```

What else?

Load it.
